DSMdat

DSMdat

Build and improve your DSM portfolio with access to detailed program profiles from across North America

Subscriber? Go to the tool

DSMdat is our database of thousands of demand-side management (DSM) programs in the US and Canada. It provides the most user-friendly and comprehensive reporting available today on energy-efficiency, load management, demand-response, and customer-sited renewable generation offerings from electric and gas utilities, government agencies, and nonprofit organizations.

With DSMdat, you'll get insights into:

- The programs other utilities in your state or province—or in the entire US or Canada—are running
- How your portfolio of programs compares to that of similar utilities
- How much of an incentive other program administrators offer
- The measures that other programs include
