Optimize your smart city journey

September 13, 2021

Optimize your smart city journey

E Source helps cities assess their technological and organizational maturity in seven key areas to prioritize future investments:

- Public safety
- Waste management
- Transportation
- Environmental quality
- Utility services
- Community and culture
- Strategic direction

Learn more about how the E Source Smart City Assessment tool and our technology consulting expertise can help you make the most of your smart city technology-planning projects.
